Digital Solution For SIM Registry And Regulation

The Key Role of Governments and Regulators in SIM Compliance Enforcement

Nearly two-thirds of the world population uses mobile phones. This represents billions of mobile connections

SIM cards are the way by which mobile users are identified and can access a wide range of services and products.

Left uncontrolled, however, the SIM market leads to a number of abuses and security issues that affect consumers as well as the whole mobile ecosystem, including:

Black market SIMs

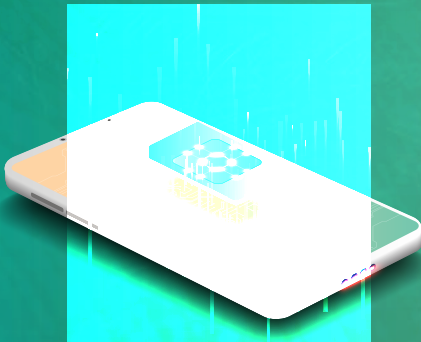

Criminal use of SIMs

Identity theft through SIM swapping and hacking

All other risks associated with poor or no identification of mobile users

GOVERNMENTS AND, MORE PARTICULARLY, TELECOM REGULATORS HAVE A KEY ROLE

to play in enforcing the compliance of this market with the relevant regulation and laws.

VISIO SIM HAS BEEN SPECIALLY DEVELOPED FOR REGULATION AND LAW ENFORCEMENT PURPOSES.

This digital solution consists of a centralized database that collects and manages SIM information from all operators in a given country.

IT ACTS AS A CENTRALIZED SIM CONTROLLER THAT PROVIDES KEY FUNCTIONALITIES AND CAPABILITIES, INCLUDING:

Authentication

Big data analytics

Deactivation

Market surveillance

Crime investigation

Reporting

OVERALL, **VISIO SIM** HELPS PROMOTE **TRUSTABLE MOBILE IDENTITIES** FOR A **SAFER TELECOM ENVIRONMENT**.
